

ChangeLab Solutions

How do you build a  
*healthy community?*

# Food

# Air & Water

# Recreation

# Transportation

# Toxin & Tobacco free

# Housing

# Community

## A stylized illustration of a two-story building with a dark blue roof and light blue walls. A large black sign with white text reads "NOW HIRING". In front of the building, there are several potted plants with white flowers. People are walking on the sidewalk: a woman carrying two yellow shopping bags, a man walking a dog, and a woman looking at a smartphone. The scene is framed by a large white circle.

# Schools

# Connectedness

Our health is affected  
by the places we  
*live, work, & play*

The background of the slide is a solid blue color with a faint, light blue line pattern that resembles a city street map or a network of roads. The pattern is dense and covers the entire area.

*How can we create*

# HEALTHY ENVIRONMENTS?

*Experts like  
the CDC*

agree that the best  
way to achieve  
health is to change  
**environmental  
factors**

*To create  
change,*

**there must  
be policy**

# Policies

provide the framework

# Healthy Eating

# *Parks & Recreation*

# Transportation

# Tobacco Free Environments

# Housing

# Public Safety

BUS STOP

# *Economic Opportunity*

# Schools

*100+ years*

**OF POLICY HAS  
ACCOMPLISHED A LOT**

*1.6 million*

**lives saved, for instance**

Sometimes  
policy doesn't  
take health  
into *account*

**Isolated**

**Uncoordinated**

**Inconsistent**

# PREVENTING US FROM SOLVING *our biggest challenges*

**Violence**

**Poverty**

**Chronic disease**

**Climate change**

Consider one  
*beautiful park*

What happens  
when park policy is  
disconnected from  
*housing policy?*

BUS STOP

Consider a  
*new roadway*

BUS STOP

What happens when  
transportation agencies  
are disconnected from air  
quality agencies & the  
*local health department?*

WHAT IF WE COULD  
*change it?*

# Working together to tackle our *biggest problems*

*What would it look like?*

# A new *approach*

# Health in all policies

# *Sustainability* in all policies

# Equity

## in all policies

*It all means one thing:*

**BRINGING PUBLIC  
AGENCIES TOGETHER**

*A policy*

sets the framework for the  
new approach
