

dors.it

The Dors website provides access to and enhances health promotion and prevention contents organized by subject of interest. A separate section is dedicated to the documentation supporting the Piedmont Regional Health Prevention Plan.

disuguaglianzedisalute.it

The site is curated in collaboration with the Suprazonal Epidemiological Service. The objective is to document interventions, policies, and programs proven effective in tackling health inequalities nationally and internationally.

We are members of

Who we are

We are a documentation center established by the Region of Piedmont in 1998.

Working at the center is a group of professionals in documentation, communication, planning, training, and evaluation who provide the Center's services:

- ▶ To disseminate the culture and practice of health prevention and promotion and to facilitate actions for their development in various sectors with an equity focus
- ▶ To facilitate the process of knowledge transfer and exchange
- ▶ To make accessible robust and updated documentation for planning, managing, and evaluating health promotion and prevention projects and interventions via the inter-sectoral Health in All Policies approach

What we do

We provide scientific, methodological and legal support for the initiatives and actions promoted by Piedmont regional government and local health units through:

- ▶ participation in work groups and local, regional, and international networks and projects
- ▶ dissemination of proof of efficacy, good practices, guidelines, and norms
- ▶ literature, factual and legal search upon user's request
- ▶ dissemination of social marketing and health communication strategies
- ▶ database creation and management
- ▶ evaluation of projects and good practices
- ▶ training and continuing professional education in health prevention and promotion
- ▶ management of a specialist periodical library

Who our target audience is

Our services are addressed to practitioners and professionals in the health care, education, social and culture sectors, and to administrators and decision makers at the local, regional, and national levels in:

- ▶ Regional governments and local authorities
- ▶ Local health units and hospitals
- ▶ Regional and local school offices and schools of all levels
- ▶ Universities and research institutes
- ▶ Third sector agencies

We collaborate with

- ▶ University of Turin (UniTo)
- ▶ University of Eastern Piedmont
- ▶ IRES Piemonte (Research institute in economics, sociology, and land planning)
- ▶ Social partners
- ▶ SCT- Social and Community Theatre Centre
- ▶ Ministry of Health
- ▶ Istituto Superiore della Sanità
- ▶ INMP – Istituto Nazionale Migrazione e Povertà ([NIHMP] National Institute for Health, Migration and Poverty)
- ▶ Italian Social Marketing Network
- ▶ World Health Organization
- ▶ SHE - School for Health in Europe
- ▶ EuroHealthNet – European Partnership for Improving Health, Equity, and Wellbeing
- ▶ IUHPE – International Union for Health Promotion and Education

Pro.Sa.

dors.it/prosa

Pro.Sa is a free-use database with numerous health promotion and prevention projects, interventions and policies. The database documents, shares, and puts on line projects, materials, and the outcomes of initiatives as a means to assist practitioners, decision makers, and stakeholders in project selection, design, and development and in decision-making processes.

The webpage www.dors.it/prosascuola is an interface for school staff and contains a collection of policies and good practices equity oriented.

Good Practices

retepromozionesalute.it/buonepratiche

A regularly updated tool to evaluate and enhance projects as transferable good practices, it lists health promotion and prevention good practices and a hypertext guide on project planning.

matline

dors.it/matline

This database (only in Italian) is a store of general information, toxicity data and target organs of 720 toxic cancerogenic substances potentially present in the workplace.

Occupational Injury Narratives

dors.it/storiedinfortunio

This is a collection of occupational injury narratives written by workplace safety and prevention inspectors based on injury investigations for the local health units. The narratives are supplemented by shared safety recommendations that emerged in community of practice meetings with the participating officers.
